Data Privacy Values

Covetrus is the leading provider of technology-enabled pharmacy services for companion and equine veterinary practitioners. We offer an innovative approach to advancing the delivery of animal health care with solutions that narrow gaps in patient care and drive improved financial and clinical outcomes for veterinarians and their clients. To achieve these objectives, we require the trust and cooperation of our veterinary practice partners, manufacturers, software providers, pet and horse owners, and other stakeholders to deliver high quality, secure and compliant solutions.

Covetrus privacy values
Covetrus adheres to the following privacy values:

- Covetrus does not sell or share personally identifiable customer data (PII) with third parties without consent.
- Covetrus strives to build a digital ecosystem that improves animal healthcare and respects privacy.
- Covetrus considers personal data to be confidential and we treat it that way.
- Covetrus designs every new product to consider security from the beginning.
- Covetrus takes measures to anonymize personal data and restrict access to it whenever possible.

Covetrus data security standards
Covetrus maintains a high level of security in the handling, storage, and transmission of customer data including credit card information, prescription information, and PII, including:

- Transaction security. Covetrus is a fully audited operator in the veterinary market, operating at Payment Credit Card Industry Data (PCI) Security standard compliance for the protection of credit card data consistent with the obligations of a third-party payment processor.
- Confidentiality of Transactions. Covetrus complies with all state pharmacy rules in maintaining the confidentiality of customer transactions, including maintaining the security of personal information captured during check out and customer support interactions.
- Prescription adjudication. Covetrus has earned LegitScript registered pharmacy accreditation for the validation and secure transmission of electronic prescriptions to an accredited pharmacy provider.
- Cyber security. Covetrus is on the cutting edge of applying and implementing cyber security controls consistent with the National Institute of Standards and Technology (NIST) Cyber Security Framework, and has performed third party gap analysis validated by recognized industry experts. Covetrus regularly reviews and enhances our business practices and infrastructure to ensure compliance with industry best practices. In that process, we fully expect and strive to achieve high standards for cyber and data security.
- Consumer privacy standards. In the United States, we are in the process of configuring our systems to enable full compliance with the California Consumer Privacy Act, prior its effectiveness.
in 2020, and with similar laws and regulations governing handling, storage, use and protection of sensitive personal information that may be adopted by other US states. Outside of the United States, Covetrus complies with data privacy regulations applicable in the jurisdictions in which we operate, including those that govern the privacy, use and deletion of customer information.

**Compliance with pharmacy standards**

Covetrus pharmacies comply with all state and federal pharmacy regulations and have voluntarily achieved independent third-party accreditation, including:

- Specialty pharmacy accreditation. All of Covetrus pharmacies have voluntarily achieved Pharmacy Compounding Accreditation Board (PCAB) accreditation, which is the most comprehensive compounding pharmacy compliance standard available in the US. Covetrus is also subject to the voluntary Verified Pharmacy Provider inspection and Pharmacy accreditation by the National Association of Boards of Pharmacy.

- Compliance with pharmacy standards. Covetrus pharmacies are licensed by all 50 state Boards of Pharmacy and maintain compliance with all aspects of USP 795 and USP 797 standards. Covetrus pharmacies are prepared to meet USP 800 standards if adopted in the future.

**Pharmacy regulatory disclosure standards**

Covetrus pharmacies and outsourcing facilities maintain and disclose information pursuant to legal obligations under state and federal pharmacy regulatory and authorized distributor standards, including:

- Covetrus pharmacies are obligated under state pharmacy laws to retain prescription records containing PII for up to seven years.

- Covetrus pharmacies are required to produce detailed prescription and other sales records containing PII upon request of any state pharmacy board.

- Covetrus complies with reporting requirements for controlled substances. Covetrus discloses prescription records for sales of controlled substances, including names and other PII of pet owners, to state regulatory agencies.

- Covetrus complies with state pharmacy laws, including providing voice counseling to patients, and meets all prescription dispensing requirements.

- Covetrus pharmacies and outsourcing facilities comply with state level pharmacy requirements governing patient communications related to prescriptions, including order confirmations, payment processing, drug recalls and safety information.

- Covetrus pharmacies and outsourcing facilities maintain DEA-required records for the manufacture, storage, and sale of controlled substances and produces records to DEA as required or requested.

- Covetrus maintains and retains all prescription records securely until Covetrus is legally allowed to delete them.
Covetrus cooperates with all manufacturer requirements as an authorized distributor of commercial pharmaceutical products, including providing manufacturers with veterinary practice purchasing information to comply with manufacturer drug supply chain security and transparency reporting requirements.
